"END THE DEMAND"?
(A scheme to criminalize and arrest the non violent, non abusive clients, employers and associates of sex workers against whom no criminal complaint was filed)

In what universe will that happen?

HOW MANY 'JOHNS' ARE THERE?

LET'S DO THE MATH TO SEE IF IT IS POSSIBLE

If there are 100,000 'prostituted women and children' in the US, and each of them are forced to work 300 days per year and are forced to have sex with 10 men per day, there would need to be about 300,000,000 "johns" to provide them with work:

100,000 x (300 x10)= 300,000,000

Problem: there are only **154,492,067** males in the US... of which **107,965,933** are between the ages of 20 and 79 (who may have a job and therefore the financial resources to hire a 'sex trafficking victim')

OK, SO FOR THE SAKE OF ARGUMENT, LET'S NARROW IT DOWN TO A POSSIBLE 50 MILLION ALLEGED 'JOHNS'...
50,000,000
WHICH IS NEARLY HALF THE ENTIRE MALE POPULATION OF MEN BETWEEN 20 AND 79

BASED ON THIS INFORMATION, WE CAN POSITIVELY STATE THAT THERE ARE **NOT** 300,000,000 'JOHNS' IN THE US.

How many cops do we have?

HOW MANY COPS WILL IT TAKE TO ARREST 50 MILLION 'JOHNS'? 10 MILLION? HOW ABOUT JUST 1 MILLION 'JOHNS'?

According to FBI table #77, as of 2015 there are **631,517** state & local law enforcement agents in the US

In **2015**, there were **9,225,197** REPORTED crimes in the US. Allegedly* officers made **9,078,875** arrests, of which **18.45%** were for reported crimes where a victim filed a criminal report and asked for help: **1,675,118** arrests for reported crimes. So there were **7,550,079** UNSOLVED CRIMES in 2015. On average, in 2015 cops made **14.38** arrests PER COP - PER YEAR, based on the number of LEOs and number of reported arrests. There are perhaps millions of arrests for other 'crimes' which are not counted in the "Crime in the United States" list of offenses and those arrests were also **NOT for any REPORTED crimes.**

Of the REPORTED crimes in 2015 where a VICTIM asked for help, there were **431,840** REPORTED VIOLENT RAPES AND SEXUAL ASSAULTS for which there were **19,304** arrests. That's only **4.5%** Those unsolved rape cases add up- and over 23 years, from **1991 to 2015**, there are **6,012,505 UNSOLVED RAPE AND SEXUAL ASSAULT CASES**...

Ok, so the cops can't catch all the alleged rapists *(or robbers or any of the other reported criminals)*... what's their score on arresting people who use drugs (to **"end the demand"** for drug use)? Well, from **1991 to 2015**, cops made **37,723,538** arrests for possession and selling drugs, going from **1,010,000** in 1991 to **1,259,009** in 2015...

Who are our clients?
Kings, Presidents and Prime Ministers, Top Cops, Street Cops, Attorneys & Prosecutors, Judges, Jailers, Politicians and Secret Service Agents Preachers and Priests, Rabbis and Imams Actors and Athletes - Liberals and Conservatives

The rich and powerful will always get away with their vices- it's the average 'john' who will be punished under the so called "End the Demand" crusade-(but not the cops who rape us) as will the sex workers who provide erotic services to anyone...

but it will NOT stop commercial sex

DID ALL THOSE ARRESTS 'END THE DEMAND' FOR DRUGS?
Apparently not. Ok, so what about the arrests of males for prostitution? What kind of numbers are we looking at? From **1981** to **2015**, there were **1,028,355** males over the age of 18 arrested; many of the younger males were undoubtedly sex workers, but the stats don't differentiate between the 'johns' and the sex workers.

While that may sound like a significant number, that's over three decades- so on average, there are about **30,000** arrests of males for prostitution each year. That's out of potentially millions of 'johns' (perhaps as many as **50,000,000?**)... If the number of cops we have now can't manage to arrest more than **19,304** ALLEGED RAPISTS out of **431,840** REPORTED rapes/ sexual assaults each year, how can we expect them to arrest even **15%** of **50,000,000** alleged 'johns'? That would be **7,500,000** arrests-

if the cops could even arrest that many... which is about the number of UNSOLVED
REPORTED crimes each year! This means that even FEWER of the REPORTED CRIMES will be solved- leaving more REAL VICTIMS *(INCLUDING RAPE VICTIMS)* WHO ASKED FOR HELP- **WITHOUT JUSTICE.**

Many of the men who hire *(and RAPE)* sex workers are Cops, Prosecutors, Judges and Governors... so where would we find enough HONEST cops, prosecutors and judges to arrest, prosecute and sentence even a **FRACTION** of those millions of alleged 'johns' and **how** much would it cost?

LAPD (alleged) Rapist Cops Luis Valenzuela and James Nichols

Even if cops stopped making arrests for ALL OTHER CRIMES and only arrested 'johns' 24/7, they could NEVER arrest enough 'johns' to **"END THE DEMAND"**- What is this crusade REALLY ABOUT?

*Stats from the FBI Bureau of Justice Crime in the United States Tables # 5 and 69- reported crimes and arrests for crimes 2015 Links to all orginal sources for statistics can be found on www.policeprostitutionandpolitics.com under **"Operation Do the Math."**

Visit our websites at www.iswface.org and www.policeprostitutionandpolitics.com to find many more examples of the lies and myths about prostitution- perpetrated by prostitution prohibitionists including radical feminists, religious conservatives and legislators... and the consequences for prostitutes when society accepts those lies
