2008- 2010 Average Monthly Number of Reported Rape Victims, Rape Arrests, Prostitution Arrests vs. Suspected Incidents of Human Trafficking

Chart 4

You can find the annual number of arrests for prostitution by age and gender- from 1981 to 2016- in Part VI

Government reports on these numbers are not kept up to date so we are unable to accurately chart the differences. We know that there are fewer arrests for prostitution each year, as well as fewer 'sex trafficking' cases, but these charts and graphs paint the picture of the outrageous lies told by the abolitionists and the government relating to how many actual victims of sex trafficking there are.

	2008- 2010
Human Trafficking	83
Confirmed Human Trafficking	25.15
Reported Rapes/ Sexual Assaults	17134
Arrests for Rape	1779
Arrests for Prostitution	5698

5,698 x \$3,805.03= \$ 21,680,890 average spent per month [based on the 1987 estimate \$2,000 cost per arrest for prostitution adjusted for inflation in 2009]

Annual cost of prostitution arrests estimate:
\$260,170,680

NOW IMAGINE WHAT THOSE COSTS WOULD BE IF WE ARRESTED A HALF MILLION TO A MILLION OR MORE 'JOHNS' EVERY YEAR... AND SENT THEM TO PRISON FOR 15 YEARS TO LIFE, AS SOME ABOLITIONISTS WANT TO DO...

DO WE REALLY HAVE ENOUGH MONEY AND LAW ENFORCEMENT RESOURCES TO SQUANDER ON THIS 'MORAL AND SOCIAL' CRUSADE BASED ON NOTHING BUT UNSUBSTANTIATED 'GUESSTIMATES' AND OUTRIGHT LIES?
