

HOW DO THE ABOLITIONISTS COME UP WITH THEIR NUMBERS OF ALLEGED CHILD SEX TRAFFICKING VICTIMS? DO THEY EVER QUESTION THEIR OWN STATISTICS?

IF, OVER THREE DECADES, ONLY JUST UNDER 2% OF ARRESTS ARE OF FEMALE MINORS AND 98% ARE ADULT FEMALES, THEN ONE MUST USE THOSE SAME PERCENTAGES TO FIND OUT HOW PLAUSIBLE IT WOULD BE TO GIVE AN 'ESTIMATE' OF EVEN "100,000 JUVENILES BEING TRAFFICKED INTO PROSTITUTION EVERY YEAR" (WITHOUT ANY REMAINING JUVENILES FROM ALL YEARS PREVIOUS TO THE CURRENT YEAR)? ON THE NEXT PAGE IS LISTED THE NUMBER OF MALES AND FEMALES BY AGE IN THE ENTIRE UNITED STATES- FROM THE 2010 CENSUS.

IF OVER THREE DECADES WORTH OF ARREST STATISTICS FROM THE US GOVERNMENT'S OWN REPORTS AREN'T SUFFICIENT TO SHOW A CORRELATION BETWEEN THE NUMBER OF FEMALE MINORS TO THE NUMBER OF FEMALE ADULTS ARRESTED FOR PROSTITUTION (CONSISTENT AT ABOUT 1.81% FOR FEMALE ARRESTS 1981- 2016), THEN WHAT WOULD BE SUFFICIENT?

(MALE MINOR ARRESTS AVERAGE ABOUT 1.87% OF ALL ARRESTS OF MALES- DUE TO THE LOW NUMBER OF ARRESTS OF MALES OVERALL, COMPARED TO ARRESTS OF FEMALES: TOTAL MALE ARRESTS 1981- 2016 1,059,323 OF WHICH 19,358 WERE MALES UNDER 18- ARRESTS OF MALES OVER 18: 1,039,965)

CHART I BELOW An overview of how many men would be hiring a minor if there were 400,000 or 500,000 minors (excluding the majority of adult sex workers which would add at least another 1,000,000 to the number of minors, based on the number of known arrests of both adults and minors- see Part VI- Prostitution Arrests Summary Page) - variations include number of unique 'johns' per day and number of days 'worked' for each set of 'estimated number of minors':

CHART II A/ B (MINORS and ADULTS) RIGHT- An overview of how many men would be hiring adult sex workers based on the variables of 100- 200 days worked per year and 1 to 10 unique 'johns' per day- along with percentages of the entire male population necessary to accommodate that many adults and minors being 'sex trafficked'...

CHART I- MINORS	if number of minors is:	and if they worked this number of days per year	if they 'serviced' this number of unique 'johns' per day	then this is the total number of 'johns' needed to provide employment to guess/estimated victims	number of eligible males in US (see next page for 2010 US census stats)	negative numbers with (-) show enough men to supply the sex workers with 'johns'/ positive number shows males exceeding the census #
Variables: if estimated number of minors is 400,000: and if each minor worked 100 to 300 days per year and each had between 1 and 10 unique 'johns' per day	400,000	100	1	40,000,000	107,965,933	-67,965,933
	400,000	200	1	80,000,000	107,965,933	-27,965,933
	400,000	300	1	120,000,000	107,965,933	12,034,067
	400,000	100	2	80,000,000	107,965,933	-27,965,933
	400,000	200	2	160,000,000	107,965,933	52,034,067
	400,000	300	2	240,000,000	107,965,933	132,034,067
	400,000	100	3	120,000,000	107,965,933	12,034,067
	400,000	200	3	240,000,000	107,965,933	132,034,067
	400,000	300	3	360,000,000	107,965,933	252,034,067
	400,000	100	5	200,000,000	107,965,933	92,034,067
