SO what you are reporting is that this officer of the law was downloading or at least looking at child pornography on a police station computer. And no one knew this was going on? There is no filters on these machines or oversight to see how their equipment is being used??? Is this how our tax dollars are being used. Not only to pay a pervert but to facilitate his perversion. Disgusted and Angry as hell.

Two police officer's named Eric Carlson and John Ray broke into my home and they raped my daughter Kayle Wagar and they planted child porn on our computer and they poisoned my coffee cup and coffee pot!

They bragged about this at Clackamas Walmart and then they printed out flyers giving me the blame for their crimes and they distributed those flyers in my neighborhood destroying my reputation!

They did all this on one day in March 26th 2007, and they call this activity pedofying, meaning they do whatever they have to do to destroy their targets reputation so no one will care if their target is murdered, and these cops/pedofyers are more than happy to commit the crimes themselves!

My wife Joan Wagar was having an affair with Eric Carlson and she helped them to break into our home so they could rape our daughter and to frame me for it!

This is a common form of murder committed by Portland police officer's and their caught bragging about it to their bro's at Clackamas Walmart!

Cops brag pedofying people gets them killed off, that's admitting to premeditated murder their admitting to! Cops never do this alone, they have the support of their entire police department when it comes to cops framing people, which is why very few people hear of these crimes because police cover up all complaints of these crimes and news media is mums the word about it!

Terry Wagar
