A former Baltimore City police officer who has a history of molesting young girls has been arrested on charges that he sexually assaulted another relative of his.

Thirty seven year old Troy Jaquan Gee is being held without bail at the **Baltimore Central Booking Intake Facility** (<http://http://www.dpscs.state.md.us/locations/bcbic.shtml>) after a twelve year old relative of his came forward and told her school's guidance counselor that he had abused her.

The counselor reported what she heard to police

The girl told police that she was in the basement of a home in the 5400 block of Sangra Road in Northeast Baltimore in December when she asked Troy to help her set up a **Wi-Fi** (<http://http://en.wikipedia.org/wiki/Wi-Fi>) connection on her laptop. He ended up molesting the girl but stopped short of penetration when she made a face. Later, Troy gave the girl a hug to assure that everything was still "cool" and acted like nothing ever happened.

This is not the first time the 11 year veteran ex police officer has been accused of molesting girls. Another relative of his, a 13 year old girl, reported that he tried to take off her sweatpants, fondled her and refused to let her leave his basement in March of 2008. He did eventually let her go because he went to work but not before taking a picture of her with his camera phone. After the girl's mother found out what happened, she called the police and he was arrested and charged with four sex offense counts, two counts of assault and one

count of sexual child abuse.

He resigned from the police department after he was arrested.

In September of 2009 he pleaded guilty to one count of second degree assault just before his trial was about to start and got a five year suspended sentence.

Troy was rearrested after another 13 year old girl came forward with allegations that he molested her as well but the charges were later dropped in that case.

For some reason he was never required to register as a **sex offender** (<http://http://dpscs.md.gov/onlineservs/socem/default.shtml>).
