SUN CITY, Ariz. - A former MCSO volunteer posseman is in jail after a computer repair company found child porn on his computer and called authorities.

According to Detectives they received a call on March 3rd when a technician working on Roger Byg's desktop computer found a large amount of images he believed to be child pornography.

Investigators with the Maricopa County Sheriff's Office Computer Crimes Division executed a search warrant on Byg's residence and say they found a substantial amount of child pornography images on his laptop.

Upon further review of the desktop computer they found images of young children between the ages of 3 to 14 years of age that were involved in sex acts.

Byg previously volunteered with the Maricopa County Sheriff's Sun City Posse where he also served on the board before resigning last year.

He is now facing 10 counts of sexual exploitation of a minor.
